Important information for a smooth journey...

Ensure your Advance Passenger Information (API) is complete for all passengers

It is mandatory to complete your API for all passengers before travelling. Failure to provide this information in advance will result in being stopped at check-in and required to update your booking before you can continue your journey.

Add Advance Passenger Information (API) to your booking

New government requirement: Check whether you need an ETA for travel to the UK.

The UK government is introducing an Electronic Travel Authorisation (ETA) scheme for visitors to the UK. An ETA is a digital permission to travel and if you're not a UK or Irish national, you may need one to enter the UK. If this applies to you, you'll need to complete this process online yourself before you travel. Most applications are processed within 3 working days. Please visit [GOV UK](#) for more information and to make sure you have the correct documents before you travel.

Register for duty free

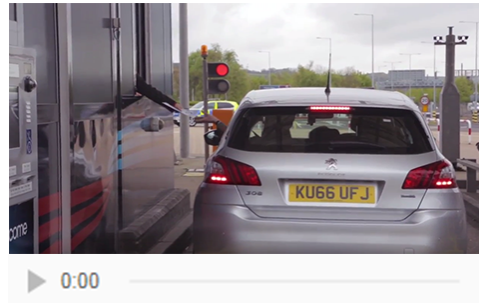

All passengers that wish to enjoy duty free shopping at our terminals must register their information in advance.

Get directions - don't trust your satnav!

Folkestone - We are near Folkestone, and have our own motorway exit at junction 11A of the M20 straight to our check-in booths. Do not follow a satnav route that includes 'Terminal Service Rd'.

[Get directions](#)

Calais - We are just outside Calais. Take junction 42b of the A16 motorway and the slip road takes you straight to our check-in booths. You must follow for "Terminal tourisme" NOT for "Terminal fret" when leaving the A16.
